

Nitro Pro 9: PDF for Professionals, Productivity for Your Business

Paperwork may be part of life, but it's not why you went into business. That's why Nitro Pro 9 simplifies the entire digital document workflow process, bringing together everything you need to create and share your best work.

- Nitro Pro 9 is **30% faster** rendering content than previous Pro versions and **up to 15% faster** than competing solutions
- Uses **nearly 40% less memory** than previous Pro versions and **almost 53% less memory** than competing solutions

Exciting new features include:

Measurement Tool

Measure distance, perimeter, and area in PDF files including drawings, blueprints, and computer-aided design (CAD) files among others.

Outlook Plugin

We put the power of PDF inside your email client—Archive important files for the future with our Microsoft Outlook plugin, and convert emails, attachments, and even entire email folders to PDF.

Compare PDF documents – Visually & by Content

Easily spot the differences when comparing two versions of a file. Quickly analyze inconsistencies in your documents to avoid unnecessary steps in your review process.

Visual File Combination

Drag and Drop any file type onto the palette and order them as you wish using Nitro Pro's new visual interface. The Combine Paint Palette lets you combine, convert, and create your new PDF file in a matter of seconds.

Topaz Integration

Nitro Pro integrates with Topaz's electronic signature software and pads for incorporating electronic signatures in digital documents.

Cloud Integration with Nitro Pro

Nitro Pro works directly with Nitro Cloud so you can save and share documents as well as manage document workflows all in the cloud.

Other new features:

- Office 2013 update with new icons
- Line vs. Paragraph Text Editing
- Spellcheck
- Floating Tool Bar
- Multiple Instances
- Tagged PDF
- Faster rendering with Threadsafe
- Batch Printing
