# WinZip® 19 Pro

## WinZip® 19 Pro – the world's number 1 compression software

Manage, protect, backup and share your files in an all-new modern interface with WinZip® the world's number 1 compression software.

With rich new file management features — including browsing, copying, moving, renaming and deleting — and trusted compression, encryption, backup and sharing, WinZip 19 Pro offers a whole new way to work with your files.

Quickly browse local, network and cloud files. Drag and drop to add files to your zip. Easily choose options for encryption, PDF conversion, watermarking and more. Then save or share via cloud services, email, instant messaging and social media. New touch screen support puts the power of WinZip at your fingertips on almost any screen or device. It's everything you want to do with your files — and it's all in WinZip!

Support for over 25 formats means you can open all major compression types, including Zip, Zipx, RAR, 7Z, TAR, GZIP and more. WinZip is available for Windows, Mac, iOS, Android and Windows 8 devices

## Privacy protection you can count on

Make sure your files are protected from prying eyes with WinZip's easy-to-apply FIPS-197 certified 128- or 256-bit encryption. For added security, password-protect your files and customise password requirements, including length and types of characters required. Built-in file management

Easily browse, copy, move, rename and delete local and cloud files within WinZip. You can also open, edit and print local files. Plus, see how much space you have available on your devices and cloud services.

## Context-sensitive features help you work

WinZip is more dynamic than ever with the new context-sensitive action pane that changes to display the right tools for the job. When you're zipping files, for example, Save and Share options appear automatically so you can quickly select the destinations for your zip.

## Includes cloud file management

Not only does WinZip 19 connect to your clouds, it also makes easy to see and work with files stored on various cloud services all in one place. Connect directly to Box, OneDrive, Dropbox, Google Drive, CloudMe, SugarSync and MediaFire. Use WinZip to zip and save large files to the cloud or retrieve files or links to share. Secure your files and save precious online storage space by zipping and encrypting them first.

## Flexible conversion options

Now encryption and conversion options, including PDF conversion, photo resizing and watermarking, are much more flexible. Select or change your encryption and conversion options before, during or after you zip your files. Plus, you can apply your selections globally or set different options for different files in your zip.

## Access popular WinZip features in other apps

WinZip Express Add-Ons are like adding a WinZip dialog to your everyday software. Available for Windows Explorer, Microsoft Outlook, Microsoft Office, Microsoft SharePoint and for photo management, the add-ons give you instant access to WinZip's most-used features. With just a few clicks, you can set your preferences for zipping, encrypting, sharing and more. Requires: A registered, installed version of WinZip 18 or higher.

## Preserve files with powerful backup tools

WinZip 19 Pro includes everything you need to automatically zip and archive your important files, including documents, photos, email and more. Use predefined jobs to free you from repetitive tasks. Back up to portable media, including Blu-ray Disc, CD or DVD. WinZip 19 Pro also enables auto-backup to any connected cloud account.
